

Mr. John Knutson
General Contractor--1531 Orangeberry

6/6/88

Dear John,

Eye Encounter/trade name--Woodmill Products is a very old manufacturer of small wooden houseware and furniture items such as bread boxes, paper towel holders, storage bins, mug racks, small benches and stools. We sell primarily to national resellers and wholesalers such as JCP, Sears, Wal Mart, Best Products, etc.

As you know, we currently manufacture in two facilities located in the cities of Anaheim and Santa Ana and are planning to merge our facilities into one larger facility currently being planned for us by the developer/owner Helenthal Inc. under lease from Company(c/o Grant Donavan 714-676-3200) during the months of June and July. In our manufacturing process we essentially bring in lumber in cut board form, re-cut the lumber into smaller pieces (we call it "milling"), sand it, assemble the pieces, finish them and ship.

It is our understanding is working with the developer and his architect/marke & Malcomb, Rudy Kazacian 714-664-9138; that appropriate building plans have been submitted to the City of Fullerton for building and fire approval. Additionally, we have or will be submitting appropriate detailed plans for necessary supplementary dust collection equipment and finishing equipment needed to properly operate the plant after installation of the equipment. Our key subcontractors who are responsible for installing the appropriate equipment, working with city officials, are involved in the plans, including regard upon specifications, etc., are as follows:
